For each temporary meter taken out, one thousand dollars (\$1,000) will be placed on deposit with the City, of which, \$25.00 is a non-refundable fee. You will be required to turn in a meter reading to the City each month and you will be billed monthly for your water usage, plus the monthly \$167.61 service charge. Failure to pay this bill promptly on a monthly basis will result in the meter being pulled. Damages to the meter are the responsibility of the "Bill To". If a meter is brought back with a damaged or inoperable nozzle or any other damage, repair costs and a processing fee will be calculated and the account will be closed, with the deposit going towards any outstanding charges. Any remaining deposit will be refunded within a month. If the meter is being replaced, a new \$1,000 deposit is required before the meter will be issued. When you are ready to turn in the meter to the City Yard, the remaining deposit will be refunded within a month, less any outstanding charges and/or additional charges for repairing any damage to the meter. If a meter is returned with a broken or tampered register, security seal and/or inlet/outlet screen, the full deposit will be kept by the City and an additional one thousand dollar (\$1,000) fine will be imposed.

By signing this application, I agree to the above terms and conditions.
